Sub: Assessing the impact of outcome-based curriculum under I scheme developed by NITTTR BHOPAL

Respected Sir

We are undertaking a research to assess the impact of outcome-based curriculum under I scheme developed under the guidance of NITTTR Bhopal for MSBTE. Towards that end we have designed several instruments the first being to 'assess the impact of outcome-based curriculum on performance of the students in industry, since a wide spectrum of abilities are developed in the students during diploma engineering programme. These abilities are for the students who have recently completed diploma and employed in your industries.

We would be highly obliged if you could also support us in this research by either forwarding the link (separate for faculty and for industry) and also giving your views in the Google form or by providing us the emails of industry experts and faculty members.

The outcome of this research we assure will go a long way in providing changes to the outcome-based curriculum in alignment with the new POs and requirements of Industry.

Looking forward to your kind cooperation and support in making this a success.

The Google form links are

i) Assess the impact of outcome-based curriculum on performance of the students in industry (by faculty)

<https://forms.glo/n4wciUJjy5sLkGXc7>

ii) Assess the impact of outcome-based curriculum on performance of the students in industry (by Industry respondents)

<https://forms.gle/kNxbtCboz8jhgkr8>

Thanking you in anticipation

Yours faithfully

Research Team

Prof. Dr. B. L. Gupta, Professor and Dean Academics and Research, NITTTR, Bhopal blgupta@nittrbpl.ac.
