The Managing Trustee/President/Secretary
All Charitable Trust/Societies under
Regional Office Pune
(Through Principal/Director of an Institute)

Subject : Industry-Institute Interaction Meet 2019 – Pune Region

संदर्भ : प्रत्येक संस्था स्वयंनिर्भर करण्याबाबत.

Dear Sir / Madam,

Are we going to become self- financed Institution or not? Frankly speaking as per the words of one of, the well Known educationist, all Private unaided professional colleges get Sizable Scholarships from the Govt of Maharashtra, therefore these colleges should be hence forth deemed to be "Grant-in-aid " Colleges of the Govt. of Maharashtra

Till what time, we are going to put burden on Government for our Survival? **“Think positive & act Positive”**, to become self Financed & Self Sustained Professional Institute owner. To achieve this, every college, college-workshops & College-laboratories should become the Industry based work places. Therefore Project based learning & Import-Substitution are the best solutions for the economic crisis of all Institutes. Remember the golden age bet "2000 to 2008" as IT Boom, when all Engg colleges & MBA colleges got fully established & settled. Unless there is some "Boom" like Nano-technology, Biotechnology, Bio-Medical Sciences or Manufacturing technology, the golden age will not be repeated. For an Engineering College to implement reverse Engineering subject in the Syllabus & Start "Manufacturing Industry" boom like china, is the only perfect solution and it is easily possible.

Hon. Minister of Higher & Technical Education, Maharashtra State & Hon. Secretary, Higher & Technical Education Shri Saurabhji Vijay has also consented to be personally remain present for this IIIT Meet in third week of August 2019.

"Nothing is Impossible in the World"

When Nepolian Bonapart said, we immediately follow & accept, but 350 years ago Sant Tukaram was guiding the society from the bottom of the heart"

"असाध्य ते साध्य करीशी सायास, कारण अभ्यास तुका म्हणे"

Now it's a time to wake up. Situation for all Professional Colleges is "Do or Die". (करा नाहीतर मरा) But still we are fast asleep. Let us come-together, do something & come out of the disastrous situation.

"When there is a will, there is a way"

In the traumatic & weakest economical crisis of all Professional colleges, the only way is to show our skill, Perseverance and extra talent to come out of it. China, the poorest country in the world, 25 years ago is staring with big-eyes towards all the Super powers. What is the reason behind that? Even today China is No.1 in population & India No. 2. When China has gone ahead, why not India? The reason lies in our Introspection. Take the examples of **Israil & Japan**.

Let us come out of the dilemma; Relieve your Principals / Directors from the clerical activities like sanctioning leaves & unwanted tensions of management. Tell them to employ their fellow Professors / Asst. Professors, lecturers to behave practically & simply concentrate on "Reverse Engineering Techniques" by taking help of selected different type of students.

"Winners don't do different things, but they do in a different way"

Instead of Crying on economy, Government policies, rules, regulations and so on; become self-sufficient by either Import-Substitution, Industry-Based Projects, Reverse Engineering or Self Enterprenurship.

"That is the only tool in your hand" in today's uncertain scenario. Engineers/Scientists/Researchers are the pillars of any economically sound Institutions. Research is not done in only laboratories. Whether Peri Cury / Madam Cury / Einstein / Newton worked in the laboratories? No, not at all.

Wake-up, stand, run & be the winners of "Make in India" with our own ideas & work."

Prof. C. T. Kunjir
I/c Joint Director
Technical Education,
Regional Office, Pune
&
Co-ordinator
IIIM 2019 – Pune Region

"Work only works"

NB:- All Principals & Directors are requested to bring this, to the notice of your active Management Person without fail and give your Free & Frank Opinion as per the instructions of our Young, Dynamic & Enthusiastic Director of our State Dr. Abhayji Wagh Saheb.

“Let us hope to be the brightest pillars of our Country, THE GREAT INDIA”
