Professor of Education Management
Coordinator MH state at EC Pune

NATIONAL INSTITUTE OF TECHNICAL TEACHERS' TRAINING & RESEARCH – BOPAL

Training Needs Analysis Questionnaire (For the academic Year 2018-2019)
(Respondent: – Officials of DTE/ BTE/ Technical Boards/ /Principals and Teachers of Engineering and Polytechnic Institutions of Western Region)

Dear Respected Respondent,

We are in the process of "*Teacher Training Needs Assessment Exercise*" where you play a key role by giving your valuable responses in the needs assessment questionnaire below. As we know that Gujarat GTU has already prepared outcome based curriculum for diploma programmes and Maharashtra -MSBTE and Chhattisgarh- -CSVTU and other autonomous Institutions are in the process of developing Outcome Based Curricula and have gradually started implementing these curricula, thus moving towards accreditation of programmes as a quality improvement measures. We all know that the Outcome Based Curriculum has implications in terms of its implementation and assessment of learning i.e. Teaching –Learning -Assessment, in addition to institution specific reforms and management of change. The questionnaire provides some themes related to these areas to address teachers' training and development needs. It may be mentioned here that efforts have been made by NITTTR Bhopal in the newly designed Induction Programmes, to give special focus and emphasis on teaching learning aspects keeping in view the requirements of accreditation and Outcome Based Curriculum implementation, and the refinement of these programmes is a continuous process.

1. To make things easy for you the questionnaire has been divided into three **(A, & B, C) parts**.

2. **Part A** of the questionnaire asks you share a few details about yourself and your past training experience etc.

3. **Part B** of the questionnaire deals with training programmes related to subjects/ topics / themes with regard to "Teaching –Learning, Educational Technology & Pedagogy-Effective Curriculum Implementation- Students Assessment, Laboratory & Workshop Development and Management , Instructional Media Design & Development, & Examination Reforms, Management Development Programmes, NBA - Accreditation , Industrial Training of Teachers Rural & Community Development and Interdisciplinary Areas of Technical Education" etc. To help you respond properly some themes relevant to the activities of a teacher in technical institution have been mentioned in the table. Moreover, a space for your responses under 'any other' category in which you write the area of training relevant to you that has not been included in the table.

4. **Part C** deals with broad areas of training programmes related to 'content updating in subject areas/ 'specialized areas'/refresher courses (mainly in Technology/ Engineering / Science etc.) in which your institute faculty/teachers/ technical staff is interested & willing to participate . Please indicate your response in the appropriate space. If you need more space please add a fresh sheet of paper. Moreover, a space for your responses under 'any other' category in which you write the area of training relevant to you that has not been included in the table.

Therefore, officials of BTE/DTE/ University/Principal of each polytechnic/institution/state level organization (as the case may be) are requested to kindly go through the questionnaires and send it to all teachers of their institutions for getting their valuable responses. Once these responses are made available to the polytechnic/institution from teachers and staff, the same may please be complied at Institution / polytechnic /BTE level for its further transmission to respective NITTTR Bhopal extension centres .

Please put 'NA' if you find any item which is not applicable to you. Your cooperation is solicited in this planning exercise.

Thanking you

Calendar Committee, NITTTR-Bhopal
