About the Program:

Project is one of the ways in which the college students can exhibit their creative skills and show entrepreneurial capabilities.

The competition will provide a forum, wherein the participants get opportunity to interact with academicians, industry experts and other fellow students to get feedback on their work and the latest market trends.

It is an endeavor to foster and enhance the culture of scientific inquiry, entrepreneurship and its relevance in real world applications and underline the strong connection among student community.

Objectives:

- To create a culture of innovation in an educational institute.
- To develop entrepreneurial mindset among students.
- To improve quality of life of people, improving environment and contributing to economic development of the nation.
- To make students aware of government support available to them to carry forward their projects as entrepreneurial ventures.
- To connect with likeminded innovators for further enhancement of the project
